

ACHIEVE3000[®] SUMMER

Dear Parent/Guardian,

Your child can win a free MP3 player—and improve his/her reading skills at home this summer— with the same great technology program we've been using all year long: KidBiz3000/TeenBiz3000.

KidBiz (for elementary school) and TeenBiz (for middle and high school) are unique because they deliver stories and assignments to your child—at his/her individual reading level. The stories are about current news events, so your child learns about important world and national happenings while improving his/her literacy skills. And the fact that they are written at your child's reading level means he/she can make steady progress in reading over the summer.

Your child used this program this year in school, and Achieve3000 invites you to continue using it over the summer—anywhere a computer is connected to the Internet. Research shows that completing 40 activities can make a big difference. Encourage your child to complete 40 activities this summer! In support of your child's reading development, Achieve3000 will be giving away one MP3 player in every state. **The individual student who completes more activities than anyone else in your state will win a brand new MP3 player.**

Here's how your child can participate:

1. Log on to www.kidbiz3000.com or www.teenbiz3000.com with the username and password your child received in school.
2. Have your child follow these five easy steps:
 - Step 1:** Check E-mail.
 - Step 2:** Click the link in the E-mail to read that day's news Article.
 - Step 3:** Do the Activity.
 - Step 4:** Finish the Thought Question.
 - Step 5:** Vote in the Poll.
